

Spindle drive VS-SA 2500, 2500 N

Product page: <https://ventsystems.de/en/product/vs-sa/>

Compact electric spindle drive with high power and speed for heavy sashes, flaps and skylights, for ventilation and smoke extraction.

Technical data

Nominal voltage	24 V DC (±15 %)
Current consumption	5 A
Thrust	2500 N
Stroke	100-1000 mm (as selected)
Travel speed	25 mm/s
Locking force	4000 N
Degree of protection	IP44
Ambient temperature	-20 °C to +60 °C
Temperature resistance	B300
Service life	10,000 double strokes
Housing	Plastic

Features

- electronic overload protection
- automatic stop when there is an obstacle
- Mounting kits available on request

For smoke and heat exhaust ventilation (SHEV) applications, the drive must be operated with an approved SHEV control panel; the suitability of the combination of window, drive and control panel must be verified for each project.

Supply and install professionally in accordance with the manufacturer's instructions. Electrical connection and cable routing under a separate item.
